

A complete listing of the claims with proper claim identifiers is set forth below.

**In the Claims:**

1. (Currently amended) A portable food dispenser comprising:
  - a. a first container, the first container having a tab with a slot and having a top opening;
  - b. a lid for the top opening of the first container, wherein the lid is operational between a first position, a second position, and a third position, such that when the lid is in the first position it covers substantially all of the top opening of the first container, when the lid is in the second position it covers only a portion of the top opening of the first container, and when the lid is in the third position substantially all of the top opening of the container is uncovered;
  - c. a handle on the lid, wherein the handle includes a tab positionable to fit into the slot of the first container to secure the lid to the first container, the handle for carrying the portable food dispenser; and
  - d. e. a second container, wherein the second container is capable of fitting inside the first container.
2. (Original) The portable food dispenser of claim 1, further comprising a cover for the second container.
3. (Original) The portable food dispenser of claim 2, wherein the cover contains an opening.
4. (Original) The portable food dispenser of claim 2, wherein a portion of the cover can be removed to create an opening in the cover.
5. (Original) The portable food dispenser of claim 3, wherein the cover includes a removable cap that covers the opening in the cover.
6. (Original) The portable food dispenser of claim 1, wherein the first container is formed from a unitary blank of corrugated cardboard.
7. (Original) The portable food dispenser of claim 1, wherein the second container is formed from thermoformed polyethylene.

8. Cancelled

9. Cancelled

10. (Original) The portable food dispenser of claim 1, wherein the lid is integral with the first container.

11–19 Cancelled

20. (Currently amended) A portable food dispenser comprising:

a. a first container, the first container having a tab with a slot and having a top opening; and,

b. a lid for the top opening of the first container, wherein the lid is operational between a first position, a second position, and a third position, such that when the lid is in the first position it covers substantially all of the top opening of the first container, when the lid is in the second position it covers only a portion of the top opening of the first container, and when the lid is in the third position substantially all of the top opening of the container is uncovered; and

c. a handle on the lid, wherein the handle includes a tab positionable to fit into the slot of the first container to secure the lid to the first container, the handle for carrying the portable food dispenser;.

21. (Original) The portable food dispenser of claim 20, wherein the lid is integral with the first container.

22. (New) The portable food dispenser of claim 20, wherein the first container is formed from a unitary blank of corrugated cardboard.

23. (New) The portable food dispenser of claim 20, wherein the slot comprises a T shape.

24. (New) The portable food dispenser of claim 20, wherein the handle includes fold lines to accommodate folding the handle flat to the lid.

25. (New) The portable food dispenser of claim 1, wherein the slot comprises a T shape.

26. (New) The portable food dispenser of claim 1, wherein the handle includes fold lines to accommodate folding the handle flat to the lid.
